WAS GIVEN NEW LIFE

The Grand Rapids Fruit Growers' Association Reorganized.

SHIPPING RATES

pids Fruit and Work to the Inerest of All Concerned.

de Fruit Growers' are point yeaterday afternoon in the court house with a small representation of the ruit growers present from the territory ributary to this city. At the meeting me week ago an aljournment was taken to it was a question in the minds of those in attendance whether the organization should be continued. Yesterday the attendance was not much larger, but those present were enthusiastic over the benefits derived from the association. Joseph Peares, chairman of the committee appointed to confer with the railroads relative to lower rates for ing peaches in baskets, reported that he had consulted with Freight Agent Davis of the C. & W. M. and read letter from that official, which stated that the Central Traffic association had decided to give the peach growers and shippers one rate for peaches shipped in haskets to all points bounded by the Mississippi and Ohio rivers and the Grand Trunk on the east. Heretofore the association has decriminated in regard to peaches shipped in haskets by charging one and one half rates. This concession from the railroads was deemed valuable enough to warrant the continuation of the organization, and to demand the support of every fruit grower in this mininty. The object of the association, as announced yesterday, is to advertise the fruit grown here among outside markets, and if possible, to attruct buyers to this market. The members are not opposing local comto attract buyers to this market. The members are not opposing local commission merchants. They intend to work on the principle that the commission merchants gain is in part their own. The benefits accruing from the association were discussed at length, and by a unanimous vote, it was decided to reorganize. The shipping list will be revised and the association will start out with renewed life. The membership fee was re-established at \$1, and the following officers were elected for the ensuing year: President, Robert Graham; treasurer, Harvey O. Bramen; secretary, William K. Munson; executive committee, Joseph Pearce, Denis Coon and Aaron Bos. The association them aljourned to meet at the same time and place Saturday, August 23.

SESSION WAS VERY QUIET. Board of Public Works Transact Only

The business transacted by the board of public works yesterday was of the ordinary sort. There was nothing of unusual interest to disturb the serenity of the members from first to last.

John Cauifield appeared before the board and suggested that as North East street is very sandy it would make a better street to piace a sub-stratum of clay on the sand instead of making the whole street of gravel. He believed that if clay is not used the sand will work up through the gravel.

clay is not used the sand will work up through the gravel.

Contractor Matthewson appeared before the board and explained that curb stones with block streaks running through them, were just as strong as the stones without such streaks. He has been using streaked stones, and they were condemned by the inspector.

The following bills were allowed: J. B. Orth, \$72.75; K. J. Kiennier, \$26; S. S. Hamilton, \$15; F. R. Myers, \$30; E. R. Vanghen, \$30; E. P. Pierce, \$26.25; C. S. Wilson, \$33; L. L. Launiere, \$30; M. V. Cuctis, \$4.37; Richard Orpen, \$15; John Wickham, \$30; John Cummings, \$1.50; John Killean, \$8.40; A. N. Albee, \$1.00; John Killean, \$8.40; A. N. Albee, \$1.00; John Killean, \$8.40; A. N. Studley & Barcley, \$60.22.

Lord Siles? John Killoan, \$1.90; Stud-ley & Harclay, \$60.22.

Dr. William Fuller appeared before the board and complained that the gravel on the alley in the rear of his house, on Fountain street, is not good material. He says he is unable to get his coal in his cellar because no team is able to hauf a local over the alley in the condition in which it has been left by the contractors. He was informed that the board had seen the work and con-sidered it a good job, and the gravel is all right.

Property owners on East Leonard street saked for water mains. Referred to general superintendent. Property owners on North Canal street

asked for a water main. Referred to general superintendent.
Mr. Putnam offered a resolution that

the general superintendent report all inspectors who do not hold the con-tractives strictly to the specifications, and also to report to the board when, in his opinion, the good of the work de-mands a change in the specifications. The following contracts were let:

The following contracts were let:

Blymeyer Court improvement to Joseph Owens for £240; sewer in Fourth arease to Drielorg & Riess, for £412.

The Plainfield arease improvement will be one of the most important among all the improvements made in this city if late. It will be made a lasting improvement, and should therefore have the most careful practical consideration as to its future results and effects upon that part of the city. The street should be cut just beyond the D. G. H. & M. railway. By so doing the arease could be inside one of the most popular drives in terand Expula and one which would draw people heaettle upon and beyond it. This would greatly enhance the value of roal estate north of the D. G. H. M. railway.

Bunry property owner should petition the common council to dalay the imndo is established, and they should mand it for the public good.

GROCERS PICNIC.

List of Prints Officed at the Ottawn

Beach Contest. Thursday the greeers will hold their picture at Ottawa Beach. Of the 300 grocers and butchers in the city, all but nifteen have promised to close their places of business for the day. Frank N. Barrett of New York, editor of the American Greecy, will deliver an address. Fred Hall of the committee on accord has promised the following arms. sports has prepared the following pro-

Guessing Contest—To the person guessing the nearest the number of round trip tickets sold by the Chicago & West Michigan railway for the gracess' picaic, will be presented a round trip ticket to Chicago.

The life saving crew will give an exhibition on Illack lake and Lake Michigan, and the grocers will have a glorious old heliday.

Psculiar in combination, proportion and preparation of ingredients, Hood's Saranparilla possesses the full curative value of the best known remedies of the regetable kingdom. Try it.

Card From the Retail Grocers' Associa-

For six successive years the Retail Grocers' association of this city has held an annual pienic at Reed's Lake, the event increasing in interest and attendance with each year. When the executive began to cast about for the location of this year's pienig a very flattering offer was received from the C. & W. M. railway to transport the people to Ottawa Beach, which proposition was presented at the regular annual meeting of the association on Aug. 7, freely discussed and overwhelmingly accepted, there being but two votes recorded against it. Thus assured by the association, the various committees have arranged for a day's outing at Ottawa Beach on Thursday, Aug. 17, on which occasion a program of unusual excellence will be presented. In the meantime we understand that the liquor dealers and a few others at Reed's Lake have raised a purse of \$100 for the purpose of holding an alleged grocers' pienic on the same day set for the regular picnic of the association, with a view to influencing some of the grocers distributed of the association, with a view to influencing some of the grocers will be misled by this side show, as the undivided efforts and energy of the association are pledged to make the regular picnic a success, and any grocer who countenances an effort of this kind to injure the chances of the regularly established picnic is doing himself, as well injure the chances of the regularly established picnic is doing himself, as well

as the association, an injustice.

RETAIL GROCERS' ASSOCIATION.

The Rev. Dan F. Bradley's Im-

pressions of Seattle.

PREDICTS A GREAT FUTURE

nothing of Senttle's

Trade With Aleska.

Scattle's Resources.

Seattle is bound to become a great city. It has coal at its very doors and iron but a short distance away. Then the spirit of the people is such that it must make the city great. The good of Seattle is first in every man's mind. They nominated a Seattle man for goverbor of the state on the republican ticket, and old time democrats said let us lay politics aside and elect a Seattle man. it's Seattle first and politics afterwards. With such a spirit I predict a great future for the city. I found Grand Rapids well thought of there, as many men from this part of Michigan have settled in the Sound country. Some of the best men and women from the east have settled there. I tell you the government made a great mistake when it let England have the territory northeof Puget Sound, especially as we have Alaska, it would now be valuable to have a strip of territory along the coast extending to Alaska. There is a great deal of commerce springing up between Alaska and Seattle, and it is a good trade for Seattle merchants, as it is all cash business. Those wonderful gold mines are in Alaska and the lightness.

BOOMS FROM IS UP.

MODERN PLATE, SIS AND SIS

The Rev. Dan F. and Mrs. Bradley returned home yesterday morning from a sojourn of two menths in Seattle. Both are enthusiastic in their praise of the west. "With flowers blooming every mouth in the year and with their wonderful resources Seattle is a perfect paradise," said Mr. Bradley to a reporter for Tus 'Hanam last evening. "We went in June, and while there I preached in the First Congregational church of Seattle. We went over the Northern Pacific route and saw the fine scenery along that line. I have made the trip to the Pacific Coast before, but the scenery along the Northern Pacific the trip to the Pacific Coast before, but the scenery along the Northern Pacific is the finest to be seen in the west. What took me as being most notable was that we did not see an acre of country that was not either good grazing grounds or fit for cultivation. We spent our spare time in visiting the beautiful country around Puget Sound. I visited the islands near Seattle. The largest island of the group is cultivated quite largely. It was partly covered with pine, but there was a valley the fertility of which is aimost beyond belief. I was told that they raised 800 bushels of potatoes on a single acre. I could hardly believe it until I saw the wonderful crops growing.

March, 71, to March, 72. Two million, two hundred and twenty-eight thousand, six hundred and seventy-two bottles sold in one year, and each and every bottle was sold on a positive guarantee that money would be refunded if satisfactory results did not follow its use. The secret of its success is plain. It never disappoints and can always be depended on as the very best remedy for coughs, colds, etc. Price 50c and \$1. At Peck Bros. drugstore. Rainmakers Dutclassed.

Experiments in rain-making at North park Sunday afternoon forms one of many features.

good trade for Seattle merchants, as it is all cash business. Those wonderful gold mines are in Alaska, and the lishing industry, which is even better than the gold mines. There is a boat in from Alaska every week. I was told that the lishing canning industry was wonderful. Every little bay on the coast is lined with salmon canning houses and still they are not able to handle the product. The Indians do the fishing and the white men do the canning. The gold mining is done largely, I am told, by the hydraulic system. The product of the largest mine last year exceeded the price paid for Alaska. The climate near Scattle is mine last year exceeded the price paid for Alaska. The climate near Scattle is something like the climate of England. I should judge. Rather humid with occasional fogs. I believe they never have any cold weather, or not colder than 30 or 40 degrees. Children can play out doors all the year and therefore become rugged and healthy. It is never hot in summer there as it is here, but a delightful uniformily of temperature is kept up throughout the year. It is not wonderful that men become attached to the country. I talked to several Michigan men about coming back to Michigan men about coming back to Michigan to live, and they all expressed the desire that the necessity would never arise to force them to come back to Michigan. However, I feel thankful to get back, and am convinced that Grand Rapids is as fine a city and Michigan as fine a state as one could wish to call their home. I received the Grand Rapids papers a part of the time, but not so often as I wished for them. At home we are inclined to abuse the daily paper, to throw it aside before we have read it one half through and declare there is nothing in it. But when we are away from home, how different. We read it all carofully and search in every corner to see if our own or our friends' names appear anywhere. The papers of Scattle are good for a city of 60,000 population, and all seem to be doing well." P. P. P. to one of ——. I have just given Mr. Parsons another order for 15 doz. Please give it your prompt attention.
